THE ELEMENTS

VISOKO is a post-modern typeface. Originally Created in early 2009 by [Mostardesign](#) Studio.

This typeface is a playful, geometric typeface inspired by post-modern fonts designed by Mecanorma from the 80s.

VISOKO has been designed on a grid of 7×6 squares but the goal was to create variations from the grid to give the character a destructured aspect. VISOKO is available only in uppercase.

Available in two styles : regular and black with corresponding italics.

This OpenType font contains the following characters :
