Synopsis

CLATTERBOX + MOSTARDESIGN STUDIO = LET'S DANCE !

The studio has been commissioned to create a video for a project called «RÜTS». The concept of this project was to make a collaborative work between audio artists and motion designers. We have chosen to collaborate with CLATTERBOX from Z-Bop Label in UK. It takes you in the cold universe of the studio with both realistics images and digitals animations.

The «RÜTS» project features also the work of DFuse, Renascent, Perpermelon TV, Scott Pagano, Move D & Benjamin Brun, Wang inc...

Now the results is available for the first time in a beautiful DVD called RÜTS.
